

## APPROVAL CERTIFICATE

REFERENCE EASA.145.7129

Taking into account the provisions of Article 9(2) of Regulation (EC) N° 1592/2002 of the European Parliament and of the Council and the Technical Arrangements for maintenance currently in force between the European Aviation Safety Agency and TCCA, the European Aviation Safety Agency (EASA) hereby certifies :

### ATLANTIC AVIONICS, INC

TCCA Aircraft Maintenance Organisation Number: TCA AMO 2-94

549 Barnes Road  
Halifax Int'l Airport  
Enfield, Nova Scotia  
Canada B2T 1K3

as a Part-145 maintenance organisation approved to maintain the products listed in the TCCA Approval Certificate and associated Category Limitations Document and to issue related certificates of release to service using the above reference, subject to the following conditions:

1. The scope of the approval is limited to that specified on the TCCA Approval Certificate, and the associated category limitations documents for work carried out in Canada. (Unless otherwise agreed in a particular case by EASA).
2. This approval requires continued compliance with CAR 573 and the differences as specified in the Technical arrangements for maintenance, including the use of the TCCA Form 24-0078 for release/return to service of components up to and including powerplants.
3. Certificates of return to service must quote the EASA Part 145 approval reference number quoted above and the TCCA AMO number.
4. Subject to compliance with the foregoing conditions, this approval shall remain valid for an unlimited duration until the approval is surrendered, superseded, suspended or revoked.

Date of issue: 26<sup>th</sup> OCTOBER 2004

**Re: Part-145 Approvals Issued Subject to the Provisions of the Technical Arrangements for Maintenance**

Dear Sir/Madam,

Following a positive recommendation from Transport Canada under the terms of the Technical Arrangements for Maintenance the European Aviation Safety Agency hereby encloses the Part-145 approval certificate for :

**ATLANTIC AVIONICS, INC**

EASA Part-145 Approval certificate reference number:

**EASA.145.7129**

This certificate supersedes your JAR 145 acceptance certificate, and will be listed in the JAA list 3. Please note that this certificate has an unlimited duration. In order to facilitate the transition process the current JAA TGL 23 should continue to be used regarding payment and applications. The JAA TGL 23 will be amended to reflect the new changes with respect to the EASA Part-145 approval at the earliest possible opportunity.

You should review the conditions as specified on the attached approval certificate, in particular condition number 3 which states that all certificates of release to service must now quote the EASA Part 145 certificate number instead of the JAR 145 acceptance number. For further guidance on the transition please refer to the EASA website [www.easa.eu.int](http://www.easa.eu.int) under maintenance organisations approvals.

Yours faithfully

J Hall  
Maintenance Organisations Manager
